

Using Adobe® Presenter™

In this two-day course, students will learn how to create Adobe Presenter presentations. The course covers topics such as recording and editing slide narration; publishing locally and to the Adobe Connect Enterprise Server; adding quizzes, animations, links, files, Flash content and Flash video to a presentation; managing presentations; and customizing presentations. The course also introduces students to options for creating and managing training courses, training curriculums, and training events.

Who should attend?

This course is intended for individuals who would like to create web-based training or distributed presentations using the Adobe Presenter tool.

After completing the course, learners will be able to:

- Understand Adobe Connect Enterprise applications
- Understand Adobe Acrobat Connect Professional
- Understand and use Adobe Presenter in conjunction with Microsoft PowerPoint
- Navigate an Adobe presentation
- Modify and configure an Adobe presentation
- Add images, audio, and video to an Adobe presentation
- Publish and distribute an Adobe presentation
- Understand Adobe Connect Training
- Understand Adobe Connect Events
- Understand the Adobe Connect Enterprise Manager

Prerequisites

It is recommended that the participants have the following prerequisites:

- A knowledge of training fundamentals and adult learning styles
- Proficiency using Microsoft PowerPoint to create presentations
