

## Crystal Reports XIR2 Report Design II - Business Reporting Solutions

This course is designed to give learners comprehensive skills and in-depth knowledge to plan and create reports that will help them analyze and interpret information.

As a business benefit, learners will find that their increased understanding of formulas, variables, arrays, templates, parameters, summaries, and sections will help them make more effective report design decisions and create more efficient reports.

### Who should attend?

The target audience for this course is report designers who are responsible for creating and distributing reports and have completed RD110R2.

### After completing the course, learners will be able to:

- Use the repository
- Create formulas
- Manage reports
- Use variables and arrays
- Create templates
- Build parameterized reports
- Summarize data with cross tabs
- Use report sections
- Build specialized reports

### Prerequisites

To be successful, learners who attend this course must have working knowledge of:

- Working knowledge of Windows conventions
- Working knowledge of basic database concepts
- Completion of RD110R2 (Report Design I)

### Materials Provided

BusinessObjects/Crystal Reports certified course manual

### Certification Applicability

This course is a course in the Crystal Reports Certified Professional (CRCP) certification.
